

Chomp Mill

Full Body Chomp Mills are ideal in applications that involve milling of cast iron and other metal or combination of cement and cast iron.

- *Special grades of carbide inserts for durability.
- *Full body design (no fishing for lost cones).
- *Domed inserts to minimize insert failure.
- *Weight and RPM can be adjusted for maximum penetration rates without bearing failures or damage to mill.
- *CNC machined bodies and threads for accuracy.
- *Carbide inserts range in size from 5/16" to 5/8".
- *Wide range of applications (cement, cast iron, etc.)
- *Mill sizes from 1 3/4" to 8 3/4" in 1/8" increments with custom sizes available.
- *Circulation ports from 5/16" for motor applications to 1 1/8" for reverse.
- *Bodies manufactured from 4140 HT steel.

Recommended WOB 4000 – 6000 (can be adjusted as needed)

RPM - 80 – 100 400 motor

Recommended make up torque (Ft.-Lbs.)

2 3/8 API Reg 3000-5000 2 7/8 API Reg 6000 -7000

Delivering Worldwide Since 2006
